Next Green – GP Foundation is designed to increase quality and service life when installing charging stations on a Ø 60 mm pole.
This flexible product greatly helps assembly and ensures easy mounting.

GP charging station foundations are also a good choice for the environment, as they are made of 100% recycled plastic.

GP FOUNDATION FEATURES

- Made of 100% recycled plastic
- Enables installation of Ø 60 mm and Ø 108 mm post tubes
- Safe and sustainable placement
- Significantly lighter than a similar concrete foundation
- Quick and easy mounting
