Next Green Poleplate 300 Ceiling Double is a tube or pole mount bracket for EV-charging boxes, intended for ceiling mounting on 60 mm tube or pole back-to-back. Poleplate is made of steel. Poleplate is designed to easily mount a charging box.

Poleplate is manufactured in Sweden for the Nordic climate. Charging box holder Poleplate is a cost-effective pole mount.

Poleplate facilitates, for example, the installation of a charging box in a parking garage hanging from the ceiling.
